MUSCLES. IDEAS.

Start With Bigger

iSatori has custom engineered and patented the first ever Bio-Active Peptides (BAP's) to help you develop muscle faster.

"Bio-Gro is the #1 muscle product of 2013!"

-Jeff Everson, Ph.D., Editor-in-Chief, Planet Muscle

Bio-Gro™ contains the first ever Bio-Active Peptides (BAP's), extracted from the highest grade bovine colostrum and concentrated into low-molecular weight, highly bioavailable micro-fractions. One small scoop of this flavorless powder creates a supra-physiological effect to amplify the body's signal ("call for") and acceleration of protein synthesis—more than your body can on its own and no matter how much protein or aminos you consume—to help you develop new lean muscle faster.* That's why so many experts are calling Bio-Gro "fertilizer for your muscles." Because it works!^
